

You can have a million dollar IT operation at a fraction of the cost

No business runs smoothly without ALL IT functions in place

There are many roles that your IT staff will fill, including: help desk, configuring and securing your network, planning, compliance policies, system administration, and plenty more!

ANNUAL COST OF MANAGED IT

Small businesses cannot afford nor should they hire for all those functions

In addition to cost, typical problems include being “hit by a bus,” lost knowledge, not addressing big risk items like security (Ransomware, virus, malicious employees), backups, legal issues, and compliance.

NetworkAntics LOVES small business!

We understand not all small business are 300 or even 30 employees. We provide a way to offer a \$1M IT team at a fraction of the cost, so small business can focus on what they are good at.
